THE CONSTRUCTIVE GEARBOX SOLUTION
We have been designing and manufacturing gearboxes in the Emsland region for over 70 years. We are the right partner when it comes to customised solutions not available in equivalent technical, economical and quantity terms from series manufacturers or where economically viable batch sizes are required.

Our workforce of more than 250 employees can draw on a wealth of ideas, knowledge and skills and always has access to the very latest technology!

Alongside bespoke, customised gearboxes, we produce several standard gearbox types.

In keeping with our slogan “RÖGELBERG GETRIEBE... the constructive gearbox solution!”, our expert team of consulting engineers is waiting to assist you in the development of your drive solution.

We look forward to finding the right gearbox solution for you too.

WHAT WE DO

QUALITY
- DIN EN ISO 9001:2015
- Fleet of high-precision machinery

LOCATION
‘Made in Germany’ in Meppen in the Emsland region

WIDE RANGE OF VARIANTS
Each year, we manufacture approx. 800 different gearbox types
We are taking on the challenges presented by the electrification of power trains and are developing our own solutions. This is where we can apply our experience of high operating speeds, noise optimisation as well as high efficiency.

This is only a very limited overview of our gearbox range. Please contact our sales engineers.
HYBRID WASTE VEHICLES

All-Electric Trucks

Forklift Trucks

Monorail

Electric Vehicles
POWER HARROWS

- MANURE SPREADERS
- FEED MIXERS
- MAIZE HARVESTERS
- LOADER WAGONS
- BEET LOADERS
- BEET HARVESTERS
The onset of mechanisation in agriculture also heralded the roots of Rögelberg’s success. We have always pioneered the development of technology for use in agricultural machinery and will continue to do so in the future.
We supply wide variety of gearbox solutions tailored to the unique requirements of construction machinery in terms of ruggedness and longevity.

This is only a very limited overview of our gearbox range. Please contact our sales engineers.
MINING WHEEL LOADERS

PAVERS
FARM LOADERS
SOIL STABILISING MIXERS
ROAD MILLING MACHINES
PAVERS
Whenever you need a special solution for a gearbox in any type of machine, our wealth of ideas makes us the perfect partner.

This is only a very limited overview of our gearbox range. Please contact our sales engineers.
We are represented in the area of materials handling technology and municipal equipment with a broad spectrum of applications.

Particularly in this area, we have acquired many years of experience in the electrification segment.

This is only a very limited overview of our gearbox range. Please contact our sales engineers.
The machines and components used in environmental technology must meet demanding and unique requirements.

Our highly sophisticated gearboxes ensure that these can be efficiently realized.
For many years, our customer base has included numerous leading machine manufacturers both in Germany and further afield. For us, proximity to the customer is key when it comes to staying at the cutting edge in line with the demands of users and technologies. Below is a list of some of the companies we supply:
